

Dial Up Users – 4-H Alberta Scholarship Application

Log In Process

Please access the application using the following website address:

<http://registration.4hab.com>

This process is quicker for dial up users than trying to access the application via the 4-H website.

Quick Facts

- ❖ The application has been streamlined and perfected for both dial up and high speed users
- ❖ The application does not need to be completed at once. The applicant can log in as many times as needed to complete the application before the deadline.
- ❖ In the event that the users' internet connection is lost, the data is saved every time the applicant refreshes the screen or changes tabs of the application. This prevents a dial up user from ever losing more than the very last data they inputted.

If you are a dial up user and are experiencing problems using the online 4-H Alberta Scholarship Application, please contact us and we will assist you:
